6 Hours of Video Instruction on Amazon Web Services (AWS)

Overview

Six hours of video instruction on Amazon Web Services with coverage on cloud computing and available AWS services, as well as a guided hands-on look at using services such as EC2 (Elastic Compute Cloud), S3 (Simple Storage Service), and more.

Description

Amazon Web Services (AWS) LiveLessons is a unique video product designed to provide a solid foundational understanding of the Amazon Web Services (AWS) infrastructure-as-a-service products. The course covers concepts necessary to understand cloud computing platforms, working with virtual machines, storage in the cloud, security, high availability, and more. Amazon Web Services (AWS) LiveLessons contains 11 independent video lessons totaling 6 hours of instruction. The videos contain in-depth instruction using live demos, slide instruction, and video captures. Demonstrations of Amazon Web Services and third-party cloud solutions are included to provide necessary context and experience for further study and use of AWS.

Skill Level

* All Levels * Beginner

What You Will Learn

Lesson 1: AWS Overview Lesson 2: Security in AWS Lesson 3: Networking in AWS Lesson 4: Computing in AWS Lesson 5: Storage in AWS Lesson 6: Databases in AWS Lesson 7: Analytics in AWS Lesson 8: Developer and Management Tools Lesson 9: Mobile and Application Services Lesson 10: High Availability & Fault Tolerance Lesson 11: Course Wrap Up

Who Should Take This Course

Working software developers, system administrators, or solution architects who want to migrate applications to or build applications natively in the cloud, and those pursuing AWS certification.
